San Diego, CA 92119

Dear Tony:

I am writing to express appreciation on behalf of myself and Heart to Heart International for all the hard work and dedication you gave to the National CARElift in San Diego. You played a vital role in its' success!

We were extremely pleased with every aspect of the event, beginning with the registration and delicious breakfast served by the San Diego Insurance Women! Every detail seemed to be covered, from the opening ceremonies through the delivery of the product into the hands of the shelters and agencies around San Diego.

All who attended the events of the day were impressed with the enthusiasm and helpfulness of all the volunteers representing many corporations and individuals throughout San Diego. We are grateful for the investment each person made and particularly thankful for our gracious transportation sponsor, FedEx.

I would like to report that more than 170 volunteers participated in assisting the 8 shelters served by this event. Folks helped by either handling registration, helping deliver more than 8 tons of hygiene supplies and medicines into their storage areas, painting walls, sorting donated clothing, feeding the homeless, hosting teens, moms and kids to special events or putting on children's parties. It was a busy day, but so meaningful to all involved.

It was great for Heart to Heart to be able to be involved in bringing those in need in touch with those, like you, willing to lend a hand.

Thank you again, for the incredible part you played in the National CARElift 2000 in San Diego. We hope to see you again in 2001!

Warmest regards,

Shirley Bush
